

Quality Tools, Equipment & Line Materials for the Energy Industry.

## Transformer Containment Bags - ABG

Safely Contain, Lift, Transport & Store all sizes of LEAKING TRANSFORMERS

- 100% Recyclable
- Manufactured from durable & strong woven recyclable polypropylene
- Tested to hold 6 times its rated capacity
- Employee & environmental safety
- Easily stored on crane truck
- Storm preparedness
- Avoid preventable spills
- Safely contain PCB's

PT - Pole-Mounted Transform Bag

PMT - Pad-Mounted Transform Bag

### PREVENT OIL SPILLS INTO THE ENVIRONMENT

- Significantly helps to reduce preventable spills that release unwanted oils into the environment
- Easy to store on truck solution for safe transport and storage of faulty transformers from site to yard
- Reduce costs of transporting large steel containers, contract crews pumping and draining transformers, as well as the cost to clean up leaks
- Lift using reinforced lifting loops and secure for transport
- Tested to hold 6 times its rated capacity
- Easily secured to a pallet
- Manufactured from durable & strong woven recyclable polypropylene
- Replaceable oil spill mat in base allowing the bags to be reused

### The Original Pole-Mounted Transformer Bag

Part No.	Style	Dimensions (m)	Closure (cm)	Capacity (kg)
PT-22	Round	0.55 (D) x 0.65 (H)	65 Wide	635
PT-30	Round	0.75 (D) x 0.90 (H)	90 Wide	860
PT-42	Round	1 (D) x 1.2 (H)	120 Wide	1020

Safely contain leaking transformers during transport and at the depot

### The Original Pad-Mounted Transformer Bag

Part No.	Style	Dimensions (m)	Closure (cm)	Capacity (kg)
PMT-48	Rectangular	1.2 (D) x 1.2 (H) x 0.90 (W)	120 Wide	1360
PMT-60	Rectangular	1.52 (D) x 1.52 (H) x 0.9 (W)	90 Wide	1814
