

MACHINERY & ACCESSORIES

Reel Winder

PART No: RVA001

- Used with Puller/Tensioner in tension stringing operations
- Equipped with automatic level wind
- Can operate with the standard 1100mm and 1400mm reels

Capacity WLL	2 Tonne
Model Torque	1kNxm
Model Rotating Speed	50rpm
Machine Weight (No rope or reel)	525kg

Hydraulic Drum Elevators Heavy Duty

PART No: CVI609

- Drum elevators are made of welded steel with a protective coating. The frame is completely detachable to reduce dimensions during transport.
- The drum elevator includes only the main frame and must be completed with TIH001 Hydraulic Motor with TUT003 Hose Connections

Part No	Dimensions (mm)					Capacity	Weight
	A	C min	C max	E min	E max		
CVI609	2140	580	1340	1200	2500	7kN	430kg

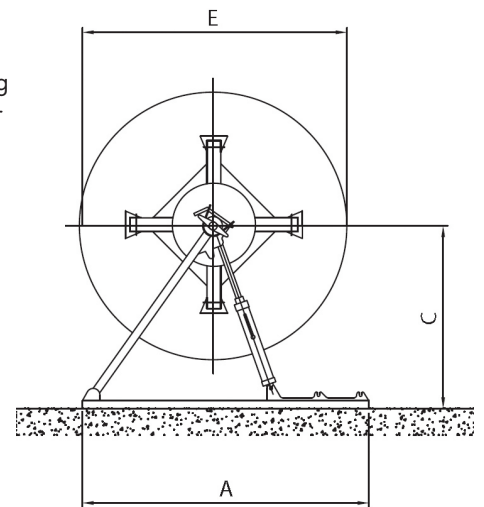

CVI609 shown with CDR002 and TIH001

PART No: CDR002

- Supports with self locking fixing wedges for wooden conductor drums (Only for CVI600)

PART No: CDR002

Hydraulic Hose Connection Kits

PART No: TUT Series

Part No	Length	Weight
TUT003	15m	23kg

Hydraulic Motor

Part No: TIH001

- Fast assembling hydraulic motor for control of the drum winding and unwinding

Max Torque	Max Rotating Speed	Weight
1.8kNxm	45rpm	76kg
